

Nataliya A. Nikitina, Dr.

Department of Chemical Metrology

V.N. Karazin Kharkov National University

Svoboda sq., 4

Kharkov 61077

Ukraine

tel.: +380675757370

e-mail: nikitina@univer.kharkov.ua

29 years

Curriculum Vitae

Born: May 07, 1980; Rybinsk, Yaroslavl region, Russia.

Residence: Kharkov, Ukraine.

Citizenship: Ukraine.

Affiliation: Department of Chemical Metrology, V.N. Karazin Kharkov National University, <http://www-chemistry.univer.kharkov.ua/khm>

Position: 2006- 2010 – **Senior Lecturer, Researcher** at the Department of Chemical Metrology

Education: 1997- 2002 – V.N. Karazin Kharkov National University, student, specialization at the Department of Chemical Metrology.

2002-2005 – V.N. Karazin Kharkov National University, Ph. D. student, Department of Chemical Metrology.

Degrees: **2002** – Master of chemistry at the V.N. Karazin Kharkov National University, advisor – Ph. D. Elena. A. Reshetnyak Ph. D. thesis: “*The evaluation of metrological characteristics of test-determinations on the basis of reagent indicator paper*”

2006 – Ph. D. in analytical chemistry at the V.N. Karazin Kharkov National University, advisor – Ph. D. Elena. A. Reshetnyak Ph. D. thesis: “*Test-methods of chemical analysis with visual indication: metrological assurance, new test-systems*”.

Language capabilities:

Russian and Ukrainian – native;

English – read and translate – fluent; speak – satisfactorily.

Awards and Scholarships:

- Scholarship named N. Beketov to young scientists from Kharkov Regional public administration, 2007.
- Research grant from Fund of fundamental, applied and searching research works of V.N. Karazin Kharkov National University, *Supervisor of the project*: “Instrumentalization of quantitative determinations in test analysis and thin layer chromatography and chromaticity of multistests” (2007).

Participation in research works supported by Ministry of Sciences and Education of Ukraine:

- ✓ Control of chemical equilibria in heterogeneous and microheterogeneous media promising for test and hybrid methods of analysis (No. 0103U004212) (**2003-2005**).
- ✓ Control of processes at the interface and optimizations of experimental conditions in hybrid methods of analysis (No. 0106U003109) (**2006-2008**).
- ✓ Chemometrics grounds of structure-retention-property relationships (No. 0107U000659) (**2009**);
- ✓ Nanostructured silica and organosilica materials for chromatography and test analysis (No. 0109U001310) (**2010**).

Supervisor of qualification work:

- ☞ **B. Sc. Temnohyud T.** “Complexing properties of Eriochromcyanin R, immobilized in gelatinous film” (2008);
- ☞ **M. Sc. Temnohyud T.** “Nitroso-R-Salt as reagent for test determination Cobalt, Nickel, Copper, Iron in water” (2009);
- ☞ **M. Sc. Dyudchenko S.** “Test-systems for determination of Calcium and Magnesium” (2009).

Cooperation:

- ☞ **Prof. V.M. Ostrovskaya**, Institute of general and inorganic chemistry Russian Academy of Science.

Research interests:

test-analysis: creation of new test-systems for environmental contaminations checking; estimation of metrological performance of test-methods techniques with visual indication (detection and determination limits, selectivity, additivity of multitests, errors of determination); colour scales.

equilibria investigation: complex formation, complex stability, composition of complex in homo and heterogeneous medium; protolytic equilibria in heterogeneous and self-organized medium.

Most important publications:

Book
